‘Enhancing Supply Chain Performance Using Theory of Constraints’

Date : Saturday, 26th June 2021

ZOOM

Time : 6.00 to 7.30 pm

Theory of Constraints:
Meeting Customer Demand with
Synchronized Production

MONTHLY LECTURE PROGRAM

Dear Members and Supply Chain Professionals,

Resources are scarce. Constraints are many. As SCM professionals we are required to deploy the scarce resources available, intelligently, to maximise the performance of our businesses. The one question which may be high on our minds would be ‘How do I do it?’

In this month’s Lecture program, we bring to you a talk on deployment of **Eliyahu M. Goldratt’s** ‘Theory of Constraints’ in Supply Chain operations, in order to meet Customer Demands and enhance Business Results by judicious deployment of resources.

Program details:

Brief profile of Speaker:

Mr. Murali J, AIME, PGDM, CPIM, CSCP(APICS), USA

Head– Supply Chain, Logistics and Merchandising

Watches and Wearables Division, **Titan Company Limited**

Bangalore
